Mr. Joe Freudenberg
Project Manager
New Jersey Department of
Environmental Protection and
Energy
401 East State Street
Trenton, New Jersey 08625

Re: Universal Oil Products Superfund Site, East Rutherford, New
Jersey

Dear Mr. Freudenberg:

On November 8, 1992, a meeting was held between representatives of the New Jersey Department of Environmental Protection (NJDEPE) and Energy and the U.S. Environmental Protection Agency (EPA) to discuss the status of the groundwater remediation in areas 1A and 2 of the Universal Oil Products Superfund site.

During the meeting both parties agreed that a Focused Feasibility Study shall be performed to develop and evaluate options for groundwater remediation.

In it's role as the support agency, EPA will continue to assist NJDEPE in the review of the Focused Feasibility Study, the Proposed Plan, and the Record of Decision for the groundwater remedy.

Sincerely yours,

Rich Puvogel, Remedial Project Manager
New Jersey Superfund Branch II

451721
